

## **ABCD Project Coordinator**

The Institute of Health Economics, a not-for-profit research organization, and the Alliance for Canadian Health Outcomes Research for Diabetes (ACHORD) are seeking TWO candidates to support the Alberta's Caring for Diabetes (ABCD) project. The candidate would work under the supervision of the ABCD Project Manager.

### **Title: ABCD Project Coordinator**

### **Position Summary:**

To provide full-time project coordination for the Alberta's Caring for Diabetes (ABCD) project. The Project Coordinator's main responsibilities are: 1) Liaising with staff in the primary care networks (PCNs) and overseeing the implementation and evaluation of ABCD interventions within the PCNs 2) Project evaluation including data management and analysis, 3) Communication activities including preparation of written reports and documentation and disseminating project findings at relevant meetings and conferences.

### **Position Requirements:**

Master's level degree in health related discipline, with emphasis in the epidemiology and public health or health promotion and 1 - 2 years of postgraduate experience in medical and public health projects is required. Demonstrated project management experience with health related projects and familiarity and experience analyzing and interpreting health data.

Duration: Project funding available for 3 years

Location: University of Alberta, Edmonton, Alberta

Salary: Commensurate with training and experience

Benefits: Competitive benefits package available

Closing date for applications: February 19, 2010

Applications should include a cover letter and recent curriculum vitae. Only candidates selected for an interview will be contacted.
